Brewing beverage efficiently

Instant beverage - 25S (120ml);
Espresso – 45s(30ml), milk coffee – 60s;
Hot water speed – 15ml/s.

Automatic cleaning system

Adjustable cleaning time
Cleaning with hot water for
maximum safety and sanitation

IOT system

Machine management:

- Error alert
- Ingredients shortage warning

Order management:

- Real time data collecting and data updating
- Real time monitoring to assist operators and to reduce maintanance costs

Parts specification

- **4L Bean hopper**

  1.1 kg capacity, space saving integrated hopper.

- **Ditting EMH64 coffee grinder**

  Bean hopper empty detection
  64mm flat grinding burrs for high and reliable grinding performances
  Target operating life (excl. grinding discs): 750 000 shots

- **Jetinno patented espresso brewer**

  Max. 20g/ shot with pre-infusion function
  9 bar pressure
  Adjustable and accurate temperature control
  Easy to clean

- **Ingredient canisters**

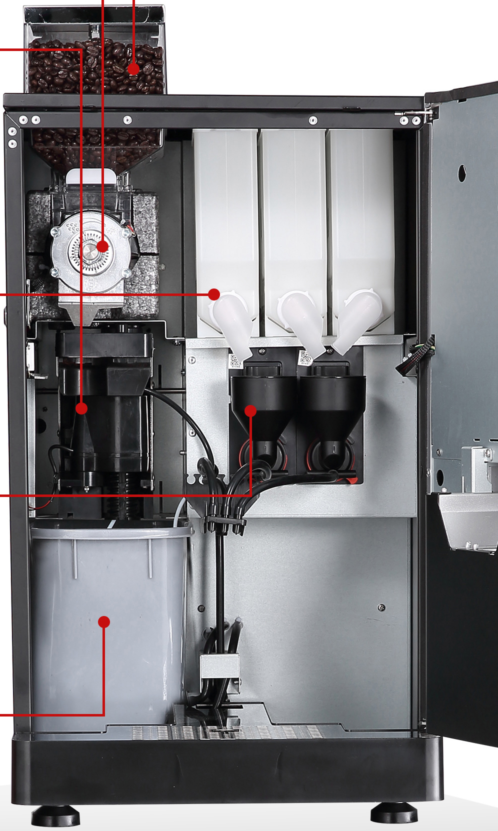
  Smart calibration to garantee the flavor of every single cup

- **Jetinno patented mixing system**

  Adjustable mixer speed from 0-17000 rpm;
  Spinning techology for excellent foam quality;
  Easy to disassemble for maximum cleaning.

- **8L waste bin**

  8 liter capacity to reduce maintenance frequency .



Application scenario

Office

convenience store

Hotel

VIP reception

Cake shop

Restaurant

Configuration

CB/CE/CQC certificate

Daily-production Capacity

Item	Coffee Machine	Coffee Tea Machine
Model	**JLTT-ES4C-14-P**	**JLTT-ESFB4C-14-P**
Cups per day	300 Cups	300 Cups
Cups per hour	40 Cups	40 Cups
Hot water Capacity per hour	9L	9L

Specification

● Standard ◎ Optional ⓧ No (Support customized development)

Model Designation	Title	Coffee Machine JLTT-ES4C-14-P	Coffee Tea Machine JLTT-ESFB4C-14-P
Basic Parameters	Touch screen size	14”	
	Dimension / Weight	coffee machine : 420 (W) *450 (D) *780 (H) mm , 50kg	
	Power requirement	220–240V，50–60Hz	
	Maximum power/standby power	2700w/80w	
Hydraulic System	700ml high pressure boiler	●	●
	Gear pump	●	●
	Accurate temp control	●	●
